

Armrest

Group KGUP

CLICK-ON-ARMREST

This armrest is designed to suit closed tubes. It's available in two lengths and fit five tube dimensions. In addition to the armrest having an elegant design, it's easy to attach and to follow Möbelfakta because it is removable, replaceable, recyclable and protects against skin contact with, for example, chrome.

Our product, originally designed as an armrest, has proven to be a versatile piece, thanks to the creative ideas of our customers. Amongst other things, one suggestion was using it as a footrest on bar stools, adding a touch of comfort and style to their seating experience.

Dare to be creative.

- Two lengths: 150 mm and 180 mm
- 5 tube dimensions: 14, 16, 18, 19, 20 mm
- Easy to attach
- Protects against skin contact
